

CAB-CX4L-8088 | External SAS Cable Datasheet

External SAS Cable, SFF-8470 (Latch) to Mini SAS SFF-8088.

10GBase-CX4 to MiniSAS (SFF-8088) cables use cutting edge technology to provide an excellent hybrid cable solution for CX4/Copper and MiniSAS rated switches, network adapters, and storage arrays.

These cables have a MiniSAS connector on one end and a CX4 Connector on the opposite end. Each CX4-MiniSAS copper cable permits auto-negotiation between the two connected devices for optimal network throughput.

Compatible with 4x Copper SDR/DDR and 10 GbE applications.

Features

- CX4(SFF-8470) to MiniSAS(SFF-8088)
- Copper Passive
- Cable Length: 1m to 5m
- AWG28/AWG30
- High performance 8 pair wire construction

Applications

- 10-Gigabit Ethernet
- Supports 10GBASE-CX4 and SDR/DDR Copper
- RoHS Compliant
